## Lesson plan - 60 minutes

---

### 5 min - Connect and set the goal

Teacher: Invite an initial view on the case, then state the objective and distinguish the fictional scenario from factual research.

Students: State an initial view and one question you want the case to answer.

Materials: Opening slide or printed opening card

Purpose: Activate prior knowledge without testing unfamiliar language.

### 8 min - Teach the five key words

Teacher: Model the five terms using their definitions and examples. Ask learners to explain a distinction in their own words.

Students: Complete Section A and compare meanings with a partner.

Materials: Vocabulary cards; worksheet Section A

Purpose: Listening supports the main speaking task.

### 10 min - Read for meaning

Teacher: Give a first reading for the main situation, followed by the four evidence questions. Clarify only vocabulary essential to meaning.

Students: Read the passage, answer the questions and locate the supporting words.

Materials: Reading passage and four questions, supplied in the worksheet

Purpose: Establish a shared context and check literal understanding before interpretation.

### 8 min - Listen for a change or decision

Teacher: Read the supplied listening script twice. First check the main situation; then read the three questions and repeat for details.

Students: Identify the main situation, then answer the three detail questions and compare evidence.

Materials: Supplied listening script and questions

Purpose: Practice listening with information that differs from the reading.

### **10 min - Guided language practice**

Teacher: Use Version A Sections B and C. Model one response, then let pairs work. Keep Version B for a later lesson, reassessment or fast finishers. For children, Sections D and E are optional additional practice.

Students: Apply the sentence frames, then respond to the five application prompts.

Materials: Worksheet A; sentence frames; optional worksheet B

Purpose: Move from recognition to usable language.

### **15 min - Cedar Café role-play**

Teacher: Arrange pairs and assign customer/server roles. Use the supplied menu and unavailable-soup condition. Model one request, then let partners exchange roles. Assess ordering, responding and checking the bill.

Students: Order a meal and drink, respond to the unavailable item, and check the bill. Swap customer and server roles.

Materials: All situation cards appear under Activities and on the student slides

Purpose: Demonstrate the objective through a purposeful exchange.

### **4 min - Exit check and next step**

Teacher: Use the three exit prompts. Record which part of the objective needs another model. Explain the short homework; use the separate assessment later if needed.

Students: Give an independent response and identify one point to improve.

Materials: Exit ticket and homework instructions

Purpose: Check individual progress after supported group work.

## **Classroom activity - Cedar Café role-play**

---

Objective: Order a meal and a drink politely, respond to an unavailable item, and ask a server for the bill.

Time: 15 minutes

Grouping: Groups of 2

Materials: Menu: Chicken with rice \$12; vegetable soup \$6; bean sandwich \$7; water \$2; orange juice \$3. Prices include all charges for this fictional activity.

Customer: You have \$15. Order food and a drink. Ask for the bill and check it.

Server: Soup is unavailable. Offer another dish. Repeat the order and calculate the total.

### **Teacher instructions**

- Use the exact situation cards below; no additional resource is needed.

- Allow 10 minutes for preparation and practice; use the remaining time for responses and feedback.
- Score each criterion 0-2: orders a food and drink politely; responds appropriately to an unavailable item; asks for the bill and checks the total. 4/6 indicates the task is substantially met. Intelligibility matters more than a perfect accent. This is a task rubric, not formal CEFR certification.

Welcome to Cedar Café. I am your server today. A customer named David sits at a small table by the window. He asks for the menu, and I give it to him. He looks at the food and drinks for a minute.

Then he says, I would like the bean sandwich, please. I repeat his order: one bean sandwich and one orange juice. He says that is right.

## Assessment guidance

---

Score each criterion 0-2: orders a food and drink politely; responds appropriately to an unavailable item; asks for the bill and checks the total. 4/6 indicates the task is substantially met. Intelligibility matters more than a perfect accent. This is a task rubric, not formal CEFR certification.

## Support

---

Reduce the number of ideas to compare while keeping the same reasoning goal.
