

Solving Everyday Problems - Complete Lesson

B2 · Ages 13-15 · 60 min · Mixed · + Critical Thinking

Overview

Learning objective: Describe a practical problem, evaluate two solutions against explicit criteria, and justify a group decision while acknowledging a drawback.

Main skill: Mixed

Secondary skill: Critical Thinking

Duration: 60 minutes

Class size: 20 students

Group work: Groups of 4

Success criteria

- State a clear response that meets the task.
- Use specific details from the supplied material.
- Respond to another view and recognize an appropriate limitation.

Materials needed

-
- Student worksheets A and B with reading and listening questions; teacher answer keys.
 - Supplied case and situation cards; paper and pens.
 - Projector + audio. Included recording and student slides.

Teacher preparation

- Read the two scripts and check the teacher keys before teaching.
- Print one selected worksheet version per learner; keep teacher copies separate.
- Prepare the supplied role cards. No outside article or paid material is needed.
- Assess the reasoning, not agreement with a preferred answer. Critical Thinking is demonstrated by criteria, consequences and a justified revision.

Key language

-
- solution
 - decision
 - consequence
 - agree

- disagree
- If we ____, the likely consequence is ____ .
- I agree about ____, but we also need to consider ____ .
- On balance, ____ is more feasible because ____ .

Lesson plan - 60 minutes

5 min - Connect and set the goal

Teacher: Invite an initial view on the case, then state the objective and distinguish the fictional scenario from factual research.

Students: State an initial view and one question you want the case to answer.

Materials: Opening slide or printed opening card

Purpose: Activate prior knowledge without testing unfamiliar language.

8 min - Teach the five key words

Teacher: Model the five terms using their definitions and examples. Ask learners to explain a distinction in their own words.

Students: Complete Section A and compare meanings with a partner.

Materials: Vocabulary cards; worksheet Section A

Purpose: Critical Thinking supports the main mixed task.

10 min - Read for meaning

Teacher: Give a first reading for the main situation, followed by the four evidence questions. Clarify only vocabulary essential to meaning.

Students: Read the passage, answer the questions and locate the supporting words.

Materials: Reading passage and four questions, supplied in the worksheet

Purpose: Establish a shared context and check literal understanding before interpretation.

8 min - Listen for a change or decision

Teacher: Play the included recording twice: once for the main situation, then again after learners read the three questions. Use the teacher transcript to resolve disputed evidence.

Students: Identify the main situation, then answer the three detail questions and compare evidence.

Materials: Supplied listening script and questions

Purpose: Practice listening with information that differs from the reading.

10 min - Guided language practice

Teacher: Use Version A Sections B and C. Model one response, then let pairs work. Keep Version B for a later lesson, reassessment or fast finishers. For children, Sections D and E are optional additional practice.

Students: Apply the sentence frames, then respond to the five application prompts.

Materials: Worksheet A; sentence frames; optional worksheet B

Purpose: Move from recognition to usable language.

15 min - The decision meeting

Teacher: Arrange groups of 4. Read the supplied role or situation cards and assign roles. Require a choice, supporting reasons and a response to another view. Monitor using the assessment criteria.

Students: Complete the group task, present your decision and respond to one question.

Materials: All situation cards appear under Activities and on the student slides

Purpose: Demonstrate the objective through a purposeful exchange.

4 min - Exit check and next step

Teacher: Use the three exit prompts. Record which part of the objective needs another model. Explain the short homework; use the separate assessment later if needed.

Students: Give an independent response and identify one point to improve.

Materials: Exit ticket and homework instructions

Purpose: Check individual progress after supported group work.

Classroom activity - The decision meeting

Objective: Describe a practical problem, evaluate two solutions against explicit criteria, and justify a group decision while acknowledging a drawback.

Time: 15 minutes

Grouping: Groups of 4

Materials: Problem: Four students, one lunch meeting, Friday deadline, delayed printed map. Supplies: paper, markers, research notes.

Option A: Draw a simple map with three locations. Option B: Create three information panels and a shared sketch.

Roles: Facilitator, timekeeper, evidence checker and inclusion checker. Compare time, clarity and participation.

Teacher instructions

- Use the exact situation cards below; no additional resource is needed.
- Form groups of 4 and model one short response.

- Allow 10 minutes for preparation and practice; use the remaining time for responses and feedback.
- Score each criterion 0-2: a clear response; two relevant reasons or details; an appropriate response to another view. 4/6 indicates the task is substantially met. These are task rubrics, not formal CEFR certification.

Student instructions

- Problem: Four students, one lunch meeting, Friday deadline, delayed printed map. Supplies: paper, markers, research notes.
- Option A: Draw a simple map with three locations. Option B: Create three information panels and a shared sketch.
- Roles: Facilitator, timekeeper, evidence checker and inclusion checker. Compare time, clarity and participation.

Example: On balance, we recommend three panels with one small overview sketch. This divides the work fairly and keeps the facts clear. The sketch reduces the risk that visitors miss the connections.

Variation: Exchange recommendations with another group and write one constructive challenge.

Homework

Continue the learning

Use the lesson materials. No additional purchase or research is required.

- Write a 140-170-word recommendation about the display.
- Compare both options, acknowledge a drawback and explain a safeguard.

Estimated time: 10-15 minutes

Exit ticket - 4 min

-
- Rank time, clarity and participation for the display. Explain your order.
 - Choose a plan and name a safeguard.
 - Name one point you would improve in your response.

Success looks like: Score each criterion 0-2: a clear response; two relevant reasons or details; an appropriate response to another view. 4/6 indicates the task is substantially met. These are task rubrics, not formal CEFR certification.

Teacher notes

-
- Score each criterion 0-2: a clear response; two relevant reasons or details; an appropriate response to another view. 4/6 indicates the task is substantially met. These are task rubrics, not formal CEFR certification.
 - Reading and listening tell different stories. Keep their keys separate.

- Student slides include tasks and language models. Facilitation notes and transcript answers belong in the separate teacher documents.

Student worksheet - Version A

Name: _____ Class: _____ Date: _____

Complete the sections your teacher assigns. Use the reading and the supplied case details. Version B is an alternative for later practice.

Section A - Meet the key words

Match each definition to a word from the bank.

Word bank

solution | decision | consequence | agree | disagree

1. A way to address a problem.

2. A choice made after consideration.

3. A result of an action or choice.

4. Share or accept an opinion.

5. Have a different opinion.

Reading - The Display Deadline

Read the passage and answer the questions.

This is a fictional school problem. Four students must finish a history display by Friday. They have one lunch meeting left and cannot stay after school. Their first plan used a large printed map, but the print shop has told them that it will not be ready until Monday. They have paper, markers and their research notes. Their teacher says accuracy and clear explanations matter more than expensive materials.

Jon suggests drawing the map by hand. This would keep the original design, but the group is worried that drawing details will take most of the meeting. A simpler map would still show the three places mentioned in their research.

Asha proposes replacing the map with three labeled information panels. Each panel would explain one place and include a small location sketch. Everyone could complete a panel or check the facts. However, visitors might find it harder to see the relationship between the places.

The group agrees to compare time, clarity and fair participation. They have not yet made a final decision. Before choosing, they need to estimate the work and identify a way to reduce each plan's main weakness. They cannot solve the deadline problem simply by spending more money.

1. Why is the original plan no longer feasible?

2. What matters most to the teacher?

3. What is a drawback of the panels?

4. Has the group chosen its final solution?

Section B - Language in use

Respond using language that fits the situation.

1. State the display problem without blaming a teammate.

2. Write a conditional consequence for drawing a detailed map.

3. Agree with a concern about time, then introduce fairness.

4. Disagree respectfully with buying more materials.

5. Suggest a way to reduce the panels' main weakness.

Section C - Apply and explain

Give a reason, an example or a case detail when the prompt asks for one.

1. Rank time, clarity and participation for the display. Explain your order.

2. Give one benefit and one risk of a simple hand-drawn map.

3. Give one benefit and one risk of three panels.

4. Choose a plan and name a safeguard.

5. State what information could change your choice.

Listening - A Different Way to Rehearse

Listen for meaning, then answer the questions.

1. What makes the yard less suitable?

- a) Noise may prevent one person from following
- b) It has no space
- c) It is closed tomorrow

2. What will the group practice in the classroom?

- a) The opening and two difficult transitions
- b) Every line three times
- c) Only the ending

3. What is their priority?

- a) Clear communication
- b) The longest rehearsal
- c) Avoiding permission

Student worksheet - Version B

Name: _____ Class: _____ Date: _____

Complete the sections your teacher assigns. Use the reading and the supplied case details. Version B is an alternative for later practice.

Section A - Use the key words

Write a sentence that shows each word's meaning.

Word bank

solution | decision | consequence | agree | disagree

1. Use "solution" in a sentence about this lesson.

2. Use "decision" in a sentence about this lesson.

3. Use "consequence" in a sentence about this lesson.

4. Use "agree" in a sentence about this lesson.

5. Use "disagree" in a sentence about this lesson.

Reading - The Display Deadline

Read the passage and answer the questions.

This is a fictional school problem. Four students must finish a history display by Friday. They have one lunch meeting left and cannot stay after school. Their first plan used a large printed map, but the print shop has told them that it will not be ready until Monday. They have paper, markers and their research notes. Their teacher says accuracy and clear explanations matter more than expensive materials.

Jon suggests drawing the map by hand. This would keep the original design, but the group is worried that drawing details will take most of the meeting. A simpler map would still show the three places mentioned in their research.

Asha proposes replacing the map with three labeled information panels. Each panel would explain one place and include a small location sketch. Everyone could complete a panel or check the facts. However, visitors might find it harder to see the relationship between the places.

The group agrees to compare time, clarity and fair participation. They have not yet made a final decision. Before choosing, they need to estimate the work and identify a way to reduce each plan's main weakness. They cannot solve the deadline problem simply by spending more money.

1. Why is the original plan no longer feasible?

2. What matters most to the teacher?

3. What is a drawback of the panels?

4. Has the group chosen its final solution?

Section B - Language in use

Respond using language that fits the situation.

1. Describe the rehearsal problem in one neutral sentence.

2. Write a conditional consequence for using a noisy yard.

3. Qualify a claim that the classroom is perfect.

4. Suggest a fair backup if the room is unavailable.

5. Explain why permission is part of feasibility.

Section C - Apply and explain

Give a reason, an example or a case detail when the prompt asks for one.

1. Compare yard and classroom against inclusion.

2. Identify a constraint the group cannot change.

3. Assign four roles for a short rehearsal.

4. Justify a backup with a drawback.

5. Give a 60-second recommendation and answer one objection.

Listening - A Different Way to Rehearse

Listen for meaning, then answer the questions.

1. What makes the yard less suitable?

- a) Noise may prevent one person from following
- b) It has no space
- c) It is closed tomorrow

2. What will the group practice in the classroom?

- a) The opening and two difficult transitions
- b) Every line three times
- c) Only the ending

3. What is their priority?

- a) Clear communication
- b) The longest rehearsal
- c) Avoiding permission

Teacher answer key

How to run the worksheet

Describe a practical problem, evaluate two solutions against explicit criteria, and justify a group decision while acknowledging a drawback.

Score each criterion 0-2: a clear response; two relevant reasons or details; an appropriate response to another view. 4/6 indicates the task is substantially met. These are task rubrics, not formal CEFR certification.

Group work guidance

Groups of 4; give everyone a speaking or checking role and rotate. Use Version B as alternate practice, not as a second full worksheet in the same session.

Answers - Version A

Section A - Meet the key words

1. A way to address a problem. -> solution
2. A choice made after consideration. -> decision
3. A result of an action or choice. -> consequence
4. Share or accept an opinion. -> agree
5. Have a different opinion. -> disagree

Teaching point: Check meaning before form.

Common errors: Answering a different question or giving a claim without the requested detail.

Corrections: Return to the exact prompt. Accept accurate equivalent wording for open responses.

Notes: Answers are in item order. Model responses are examples, not the only acceptable wording.

Reading - The Display Deadline

1. Why is the original plan no longer feasible? -> The map will arrive after the deadline.
2. What matters most to the teacher? -> Accuracy and clear explanations.
3. What is a drawback of the panels? -> Visitors may not see the relationship between places easily.
4. Has the group chosen its final solution? -> No.

Teaching point: Use the passage, not outside knowledge.

Model answers: 1. Evidence: it will not be ready until Monday | 2. Evidence: accuracy and clear explanations matter more than expensive materials | 3. Evidence: visitors might find it harder to see the relationship between the places | 4. Evidence: They have not yet made a final decision.

Common errors: Answering a different question or giving a claim without the requested detail.

Corrections: Return to the exact prompt. Accept accurate equivalent wording for open responses.

Notes: Answers are in item order. Model responses are examples, not the only acceptable wording.

Section B - Language in use

1. State the display problem without blaming a teammate. -> The printed map will arrive after Friday's deadline.
2. Write a conditional consequence for drawing a detailed map. -> If we draw every detail, we may run out of time.
3. Agree with a concern about time, then introduce fairness. -> I agree that time is limited, but everyone also needs a useful role.
4. Disagree respectfully with buying more materials. -> I disagree because spending more will not change the deadline.
5. Suggest a way to reduce the panels' main weakness. -> Add a small shared overview sketch showing all three places.

Teaching point: Mixed practice with critical thinking support.

Common errors: Answering a different question or giving a claim without the requested detail.

Corrections: Return to the exact prompt. Accept accurate equivalent wording for open responses.

Notes: Answers are in item order. Model responses are examples, not the only acceptable wording.

Section C - Apply and explain

1. Rank time, clarity and participation for the display. Explain your order. -> Accept a justified ranking that addresses all three criteria.
2. Give one benefit and one risk of a simple hand-drawn map. -> It shows relationships, but drawing may still consume limited time.
3. Give one benefit and one risk of three panels. -> Tasks can be shared, but connections between places may be unclear.
4. Choose a plan and name a safeguard. -> Example: Use panels with a shared overview sketch and a fact checker.
5. State what information could change your choice. -> A realistic time estimate or a sample showing that the simple map is quick.

Teaching point: Mixed practice with critical thinking support.

Common errors: Answering a different question or giving a claim without the requested detail.

Corrections: Return to the exact prompt. Accept accurate equivalent wording for open responses.

Notes: Answers are in item order. Model responses are examples, not the only acceptable wording.

Listening - A Different Way to Rehearse

1. What makes the yard less suitable? -> Noise may prevent one person from following
2. What will the group practice in the classroom? -> The opening and two difficult transitions
3. What is their priority? -> Clear communication

Teaching point: Read or listen twice. Answers refer only to this script.

Common errors: Answering a different question or giving a claim without the requested detail.

Corrections: Return to the exact prompt. Accept accurate equivalent wording for open responses.

Notes: Teacher transcript:

Our group has a problem with tomorrow's class presentation. We planned to meet in the music room after lunch, but another class is using it. We still need to practice together, and we cannot stay after school. There are four people in our group, and one of them needs a quiet place to hear the lines clearly.

One suggestion is to practice in the yard. There is plenty of space, but it can be noisy. Another suggestion is to use an empty classroom for fifteen minutes during lunch. That would be quieter, although our rehearsal time would be shorter. We would need to ask the teacher before using the room.

I initially preferred the yard because we could start immediately. After listening to the others, I changed my mind. A rehearsal is not useful if one person cannot follow it. We agreed to ask for the classroom and practice only the opening and the two most difficult transitions.

If the room is not available, our backup is to read the lines quietly in pairs and meet for five minutes to check the transitions. That is not ideal, but it gives everyone a role. Our decision puts clear communication ahead of having the longest possible rehearsal.

Read the questions aloud for young learners. Replay or reread in short sections if needed.

Answers - Version B

Section A - Use the key words

1. Use "solution" in a sentence about this lesson. -> Our solution is to divide the work.
2. Use "decision" in a sentence about this lesson. -> The decision needs a clear reason.
3. Use "consequence" in a sentence about this lesson. -> A possible consequence is extra work.
4. Use "agree" in a sentence about this lesson. -> I agree that fairness matters.
5. Use "disagree" in a sentence about this lesson. -> I disagree because the plan excludes one person.

Teaching point: Check meaning before form.

Common errors: Answering a different question or giving a claim without the requested detail.

Corrections: Return to the exact prompt. Accept accurate equivalent wording for open responses.

Notes: Answers are in item order. Model responses are examples, not the only acceptable wording.

Reading - The Display Deadline

1. Why is the original plan no longer feasible? -> The map will arrive after the deadline.
2. What matters most to the teacher? -> Accuracy and clear explanations.
3. What is a drawback of the panels? -> Visitors may not see the relationship between places easily.
4. Has the group chosen its final solution? -> No.

Teaching point: Use the passage, not outside knowledge.

Model answers: 1. Evidence: it will not be ready until Monday | 2. Evidence: accuracy and clear explanations matter more than expensive materials | 3. Evidence: visitors might find it harder to see the relationship between the places | 4. Evidence: They have not yet made a final decision.

Common errors: Answering a different question or giving a claim without the requested detail.

Corrections: Return to the exact prompt. Accept accurate equivalent wording for open responses.

Notes: Answers are in item order. Model responses are examples, not the only acceptable wording.

Section B - Language in use

1. Describe the rehearsal problem in one neutral sentence. -> The planned room is unavailable and the group still needs a rehearsal.
2. Write a conditional consequence for using a noisy yard. -> If we use the yard, one person may not hear the lines.
3. Qualify a claim that the classroom is perfect. -> The classroom is quieter, but the available time is shorter.
4. Suggest a fair backup if the room is unavailable. -> Practice in pairs and check transitions together briefly.
5. Explain why permission is part of feasibility. -> The plan cannot work unless the teacher allows the group to use the room.

Teaching point: Mixed practice with critical thinking support.

Common errors: Answering a different question or giving a claim without the requested detail.

Corrections: Return to the exact prompt. Accept accurate equivalent wording for open responses.

Notes: Answers are in item order. Model responses are examples, not the only acceptable wording.

Section C - Apply and explain

1. Compare yard and classroom against inclusion. -> The classroom better supports someone who needs quiet.
2. Identify a constraint the group cannot change. -> They cannot stay after school.

3. Assign four roles for a short rehearsal. -> Speaker, partner speaker, timekeeper and transition observer; rotate if appropriate.
4. Justify a backup with a drawback. -> Pair practice includes everyone, although it does not simulate the full presentation.
5. Give a 60-second recommendation and answer one objection. -> Use a clear recommendation, two criteria, one drawback and a feasible response.

Teaching point: Mixed practice with critical thinking support.

Common errors: Answering a different question or giving a claim without the requested detail.

Corrections: Return to the exact prompt. Accept accurate equivalent wording for open responses.

Notes: Answers are in item order. Model responses are examples, not the only acceptable wording.

Listening - A Different Way to Rehearse

1. What makes the yard less suitable? -> Noise may prevent one person from following
2. What will the group practice in the classroom? -> The opening and two difficult transitions
3. What is their priority? -> Clear communication

Teaching point: Read or listen twice. Answers refer only to this script.

Common errors: Answering a different question or giving a claim without the requested detail.

Corrections: Return to the exact prompt. Accept accurate equivalent wording for open responses.

Notes: Teacher transcript:

Our group has a problem with tomorrow's class presentation. We planned to meet in the music room after lunch, but another class is using it. We still need to practice together, and we cannot stay after school. There are four people in our group, and one of them needs a quiet place to hear the lines clearly.

One suggestion is to practice in the yard. There is plenty of space, but it can be noisy. Another suggestion is to use an empty classroom for fifteen minutes during lunch. That would be quieter, although our rehearsal time would be shorter. We would need to ask the teacher before using the room.

I initially preferred the yard because we could start immediately. After listening to the others, I changed my mind. A rehearsal is not useful if one person cannot follow it. We agreed to ask for the classroom and practice only the opening and the two most difficult transitions.

If the room is not available, our backup is to read the lines quietly in pairs and meet for five minutes to check the transitions. That is not ideal, but it gives everyone a role. Our decision puts clear communication ahead of having the longest possible rehearsal.

Read the questions aloud for young learners. Replay or reread in short sections if needed.

Assessment answers

1. Rank time, clarity and participation for the display. Explain your order.

Answer: Accept a justified ranking that addresses all three criteria.

2. Give one benefit and one risk of a simple hand-drawn map.

Answer: It shows relationships, but drawing may still consume limited time.

3. Give one benefit and one risk of three panels.

Answer: Tasks can be shared, but connections between places may be unclear.

4. Choose a plan and name a safeguard.

Answer: Example: Use panels with a shared overview sketch and a fact checker.

5. State what information could change your choice.

Answer: A realistic time estimate or a sample showing that the simple map is quick.

Assessment guidance

Score each criterion 0-2: a clear response; two relevant reasons or details; an appropriate response to another view. 4/6 indicates the task is substantially met. These are task rubrics, not formal CEFR certification.

Support

Reduce the number of ideas to compare while keeping the same reasoning goal.

Sentence frames

- If we ____, the likely consequence is ____ .
- I agree about ____, but we also need to consider ____ .
- On balance, ____ is more feasible because ____ .

Word bank

- solution
- decision
- consequence
- agree
- disagree

Worked examples

- On balance, we recommend three panels with one small overview sketch. This divides the work fairly and keeps the facts clear. The sketch reduces the risk that visitors miss the connections.

Smaller steps

- State the situation in one sentence.
- Select one relevant detail.
- Use a frame to explain the response.
- Add a limitation or another view.

Guided practice

- State the display problem without blaming a teammate. Model: The printed map will arrive after Friday's deadline.
- Rank time, clarity and participation for the display. Explain your order. Model: Accept a justified ranking that addresses all three criteria.

Challenge

Extend the same objective with less scaffolding and more independent explanation.

- Defend the solution you did not initially prefer.
- Add one new constraint and explain exactly how it changes your decision.
- Which assumption does your response depend on?
- What evidence or constraint would change your choice?

Pacing: the package includes more practice than one class needs.

Teach the selected Version A tasks and keep Version B, extension work and the independent assessment for follow-up.

Sensitive or misleading assumptions.

Assess the reasoning, not agreement with a preferred answer. Critical Thinking is demonstrated by criteria, consequences and a justified revision.

Presentation - teaching notes

Teacher copy. Keep this guide separate from the student PowerPoint. Slide numbers below refer to the numbered lesson slides; an exported slide may continue over several pages.

1. Solving Everyday Problems

Weigh competing solutions against time, fairness, cost, and likely consequences.

Task: What do you already know about this topic?

Teacher note: Allow thinking time, then invite a response. Accept equivalent language that meets the objective.

Purpose: Build toward the stated learning objective.

2. Today's goal

Describe a practical problem, evaluate two solutions against explicit criteria, and justify a group decision while acknowledging a drawback.

Task: Explain the goal in your own words.

Teacher note: Allow thinking time, then invite a response. Accept equivalent language that meets the objective.

Purpose: Build toward the stated learning objective.

3. Look and discuss

How could the group share the work?

Suggest a solution if one resource is missing.

Teacher note: Use this picture during the opening discussion. Accept different accurate responses. This is an illustrative scene, not evidence about real people or a substitute for the reading passage.

Purpose: Build toward the stated learning objective.

Visual guidance: Four students discuss a map and a history display around a classroom table.

4. solution

solution: A way to address a problem.

Our solution is to divide the work.

Task: Use the word in a new example.

Teacher note: Model "solution" with the supplied example. Check that learners distinguish the definition from an example.

Purpose: Build toward the stated learning objective.

5. decision

decision: A choice made after consideration.

The decision needs a clear reason.

Task: Use the word in a new example.

Teacher note: Model "decision" with the supplied example. Check that learners distinguish the definition from an example.

Purpose: Build toward the stated learning objective.

6. consequence

consequence: A result of an action or choice.

A possible consequence is extra work.

Task: Use the word in a new example.

Teacher note: Model "consequence" with the supplied example. Check that learners distinguish the definition from an example.

Purpose: Build toward the stated learning objective.

7. agree

agree: Share or accept an opinion.

I agree that fairness matters.

Task: Use the word in a new example.

Teacher note: Model "agree" with the supplied example. Check that learners distinguish the definition from an example.

Purpose: Build toward the stated learning objective.

8. disagree

disagree: Have a different opinion.

I disagree because the plan excludes one person.

Task: Use the word in a new example.

Teacher note: Model "disagree" with the supplied example. Check that learners distinguish the definition from an example.

Purpose: Build toward the stated learning objective.

9. Read and notice

The Display Deadline

Task: Why is the original plan no longer feasible?

Teacher note: Use the full reading printed in both worksheet versions. Check the four reading questions against the separate teacher key.

Purpose: Build toward the stated learning objective.

10. Listen for details

A Different Way to Rehearse

Task: Listen once for the situation, then again for details.

Teacher note: Use the supplied recording or read the exact script in the separate listening teacher copy. Do not display the transcript during the listening check.

Purpose: Build toward the stated learning objective.

11. Useful language

- If we ____, the likely consequence is ____ .
- I agree about ____, but we also need to consider ____ .
- On balance, ____ is more feasible because ____ .

Task: Adapt one frame to the situation.

Teacher note: These are language models, not answers to the reading or listening questions.

Purpose: Build toward the stated learning objective.

12. The decision meeting · 1

Problem: Four students, one lunch meeting, Friday deadline, delayed printed map. Supplies: paper, markers, research notes.

Task: Discuss your choice and explain your reason.

Teacher note: Use in the group activity. Assess the reasoning, not agreement with a preferred answer. Critical Thinking is demonstrated by criteria, consequences and a justified revision.

Purpose: Build toward the stated learning objective.

13. The decision meeting · 2

Option A: Draw a simple map with three locations. Option B: Create three information panels and a shared sketch.

Task: Discuss your choice and explain your reason.

Teacher note: Use in the group activity. Assess the reasoning, not agreement with a preferred answer. Critical Thinking is demonstrated by criteria, consequences and a justified revision.

Purpose: Build toward the stated learning objective.

14. The decision meeting · 3

Roles: Facilitator, timekeeper, evidence checker and inclusion checker. Compare time, clarity and participation.

Task: Discuss your choice and explain your reason.

Teacher note: Use in the group activity. Assess the reasoning, not agreement with a preferred answer. Critical Thinking is demonstrated by criteria, consequences and a justified revision.

Purpose: Build toward the stated learning objective.

15. Your final response

State your choice. Give evidence. Recognize a limitation.

Task: What would make you change your response?

Teacher note: Allow thinking time, then invite a response. Accept equivalent language that meets the objective.

Purpose: Build toward the stated learning objective.
